

Trent 700

[Find out more](#) ▶

A generation ahead

Trent family technology for the greatest capability on the A330P2F

Lower maintenance cost, on-wing and off-wing

Airbus family commonality providing easier opportunities to expand to other aircraft types in the future

Proven performance and reliability

More revenue potential from greater range and greater payload capability

Best life time fuel burn & performance retention from 3-shaft engine

Proven market leading reliability, to maximise availability & efficiency

Better support for the long-term

Largest and youngest A330 fleet (63% or over 800 aircraft, with an average age less than 10 years old)

Greater choice and availability means Trent 700 aircraft transition faster than rivals

Rolls-Royce service catalogue - should you need support, it can be tailored to your needs, for as long as you need it
